

Improve Attendance Awareness

Guest attendance can vary widely depending on the time of day and day of the week, making properly staffing to meet those needs difficult. Knowing attendance information, such as total club occupancy or which areas of the facility are utilized most, provides a fitness club with the insight needed to improve overall efficiencies.

Radianse brings the fitness industry an innovative and proven method to increase overall awareness of facility attendance. The *Fitness Solution* gives insight to club occupancy, peak activity times, facility usage, and staff attendance. These numbers provide a fitness facility with the knowledge to better schedule staff, provide amenities, control cleanliness, purchase equipment, and improve overall club operations.

Monthly attendance reports

Track club occupancy

Hourly counts of staff attendance

Charts of member attendance vs. staff activities for specified rooms and amenities

Radianse *Fitness Solution* Features & Benefits

- ✓ Counts of real-time facility occupancy
- ✓ Historical attendance data analysis reports
