

Improve your Member Experience

The key to running a successful fitness facility is member satisfaction. Providing members with an experience respectful of their time ensures not only that fitness clubs renew and retain memberships, but also friend and family member referrals increase.

Radianse brings the fitness industry an innovative and proven method to increase overall member satisfaction. Using a variety of technologies for tracking staff, equipment, and amenity utilization along with real-time status data, **Radianse** gives both members and staff a higher degree of visibility than ever before.
